

Patient Gateway Advisory Council

Jon Wald, MD

Product Manager

December 8, 2004, 7:00 – 8:30 am

Several Videoconference Locations

Partners Healthcare

Agenda

(Following each agenda item we will take questions)

- Product Status (15 min)
- PACCT Overview (5 min)
- PACCT Launch (45 min)
 - Physician Experience (20 min)
 - Patient experience (15 min)
 - Practice Requirements (10 min)
- Q & A (15 min)

Product Status:

FY'05 Projects

PACCT	Study of pt portals in primary care – <i>February 2005</i>
OSL	Pilot of in oncology with 'multipractice' – <i>July 2005</i>
Passport pilot	Pilot of new services for patients – <i>October 2004</i>
Core	Enhancements funded by MGH - <i>(not started)</i>
Product maintenance	Ongoing "Lights on" fixes, testing, system upgrades, support improvements
Support	Handle issues from patients (400/month) and practices (5-10/month)
Passport scalability	Planning project to estimate expansion requirements
Other research	Derm e-visits; LMR waiting room history-taking; MGH Ambulatory Practice of the Future

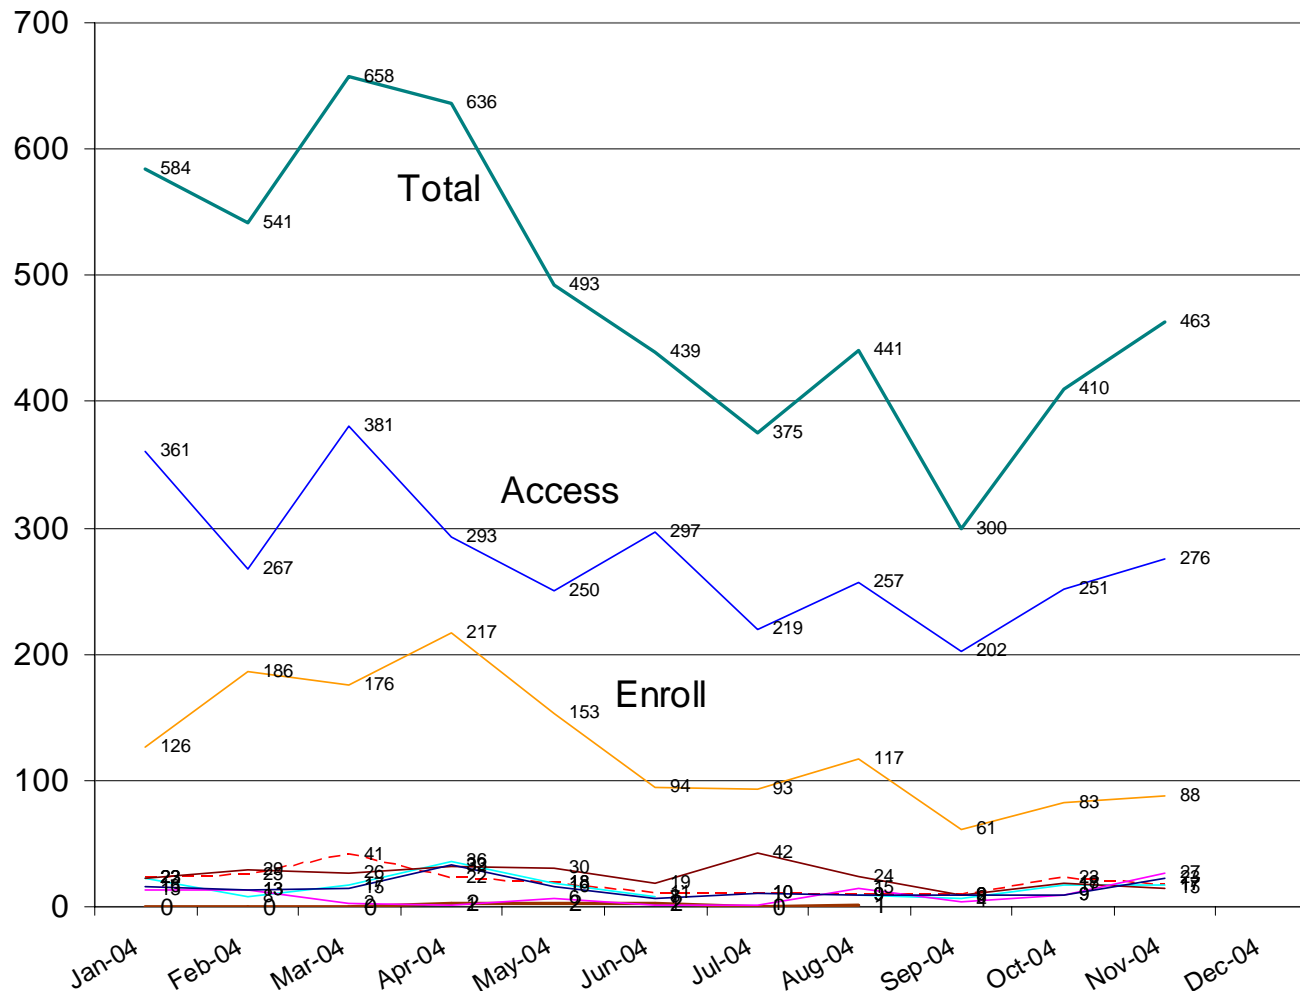

Product Status:

Usage of Patient Gateway

- 19,600 Patients
 - Enrolled as of 12/1/2004
- 14 Practices (150+ physicians)
 - BWH, MGH as part of PACCT study
 - NWH Family Medicine, BWH Norwood as part of Passport pilot
 - Senior Health as part of early PG pilot
 - Oncology Service Line pilot ~ July 2005
 - Pilot at DFCI/BWH and MGH Cancer Center (8 physicians, 500 patients)

Product Status:

Patient Support Issues

All Issues ~460/mo
(requires about 1.0 FTE plus development)

Subsequent ~275/mo
Username/
password/
technical/

Initial ~80/mo
Username/
password/
technical/

Product Status:

Recent Software Releases

- Improvements to reduce support workload
 - Access
 - Select own Username (for patients)
 - MMN removed from PW recovery
 - Enrollment
 - form and tools enhanced
- System certification and testing
 - XP sp2 issue
 - Win2k sp4 testing
 - EMPI Services testing
 - Ongoing testing tool enhancements
- BWH added links to Welcome page
 - To market Hospital e-Newsletter

Product Status:

FY'05 Development Work

- | | <u>Effort</u> |
|--|---------------|
| • Support Bulfinch move | <i>M</i> |
| — <i>Consolidation of practice locations</i> | |
| • Display all appointments for the patient | <i>L</i> |
| • Ongoing system certification/testing | <i>M</i> |
| — Needed as systems are upgraded | |
| • New feature “top priorities” (if funded) | |
| — Lab results pilot | <i>M/H</i> |
| — Proxy (pediatrics & adults) | <i>H</i> |
| — Self-Registration | <i>H</i> |

Product Status:

PACCT:

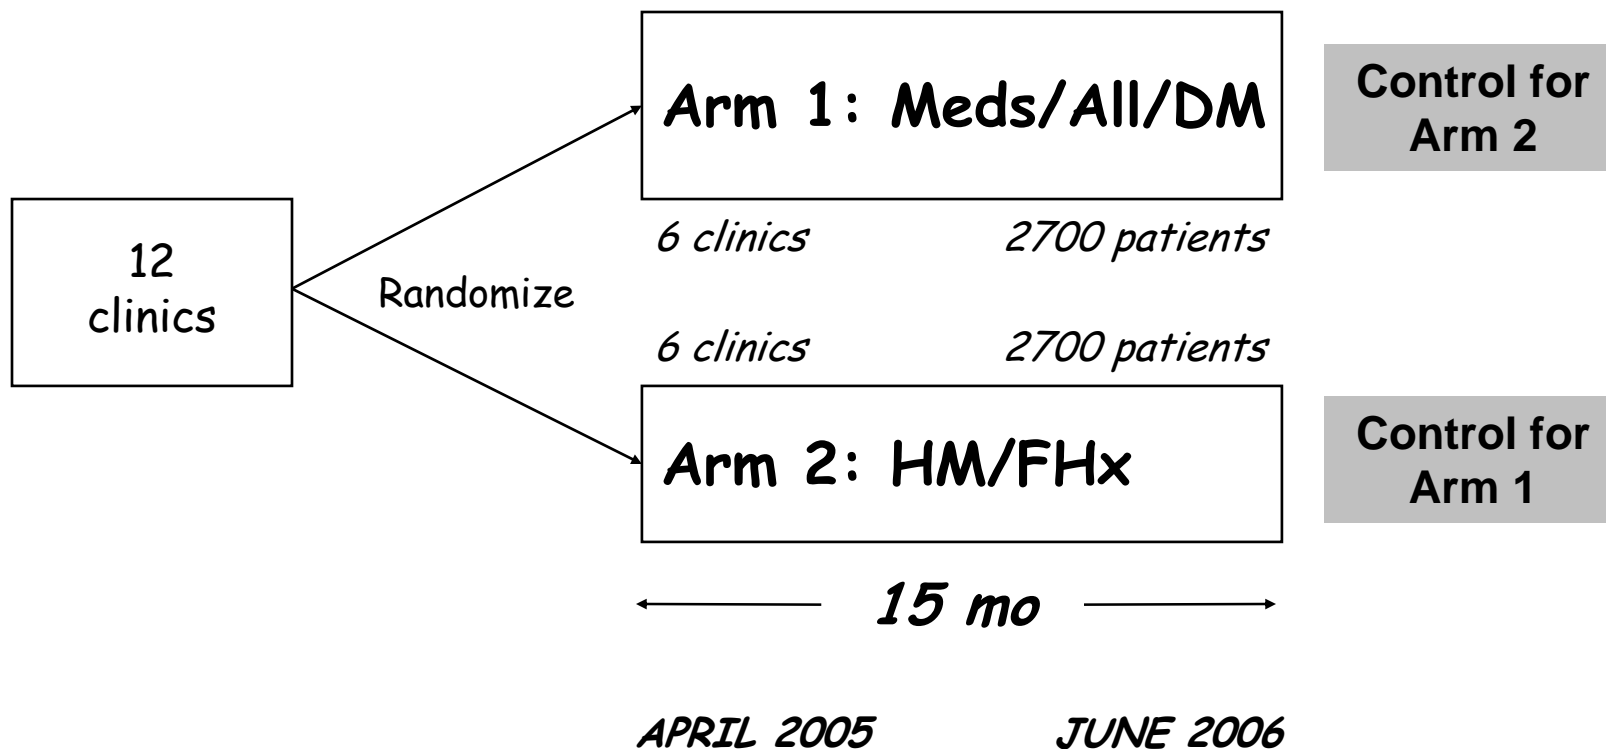

Grant Overview

Patient Access to Care and Communication Technologies

- **AHRQ 3-year, \$1.7 Million**
 - “Shared Online Health Records for Patient Safety and Care”
 - Blackford Middleton, MD (PI)
 - Jon Wald, MD (Co-PI)
 - Tejal Gandhi MD, Eric Poon MD, Jeff Schnipper MD, Richard Grant MD, James Meigs MD, David Bates MD
- **Focus: *Quality of Care with use of Patient Portal***
 - Encourage patients, pre-visit, to complete a Journal
 - Encourage physicians to look at it
 - Measure clinical outcomes (primary) and process outcomes (secondary)

Compact Study Design

Interventions: (Arm 1) Medication Tracking and Diabetes Care
(Arm 2) Prev. Care Reminders and Family History

PACCT:

Arm 1 and Arm 2

- Arm 1
 - Medication Safety
 - Diabetes
 - *Arm 1 Practices*
 - *MGH Charlestown, Bulfinch Medical Group,*
 - *BWH BIMA, Norwood, Women's Health*
- Arm 2
 - Care Reminders (Health Maintenance)
 - Family History
 - *Arm 2 Practices*
 - *MGH Beacon Hill, Downtown, Revere, Women's Health*
 - *BWH BPG, BPP, Southern Jamaica Plain*

Meds/Allergies (Arm 1)

- Prompt patient to
 - Edit/revise medication list, allergies, and alternative therapies
 - Say why they are taking the medication and who prescribed it
 - Provide links to patient information
 - Identify concerns or side effects
 - What they are
 - How long they've lasted
 - Whether they've been communicated to PCP/other

Diabetes (Arm 1)

- Address management of:
 - Blood sugar
 - Blood pressure
 - Cholesterol
 - Referrals
 - Retinal, Foot, Nutrition
 - Suggested prescriptions
 - Aspirin, Exercise, Smoking cessation

Health Maintenance (Arm 2)

- Identify care that is due or almost due

Condition

Colon ca

Breast ca

Cervical ca

Influenza

Pneumonia

Tetanus

Heart disease

Osteoporosis

Test/procedure

Colonoscopy

Mammography

Pap smear

Flu shot

Pneumovax

Tetanus shot

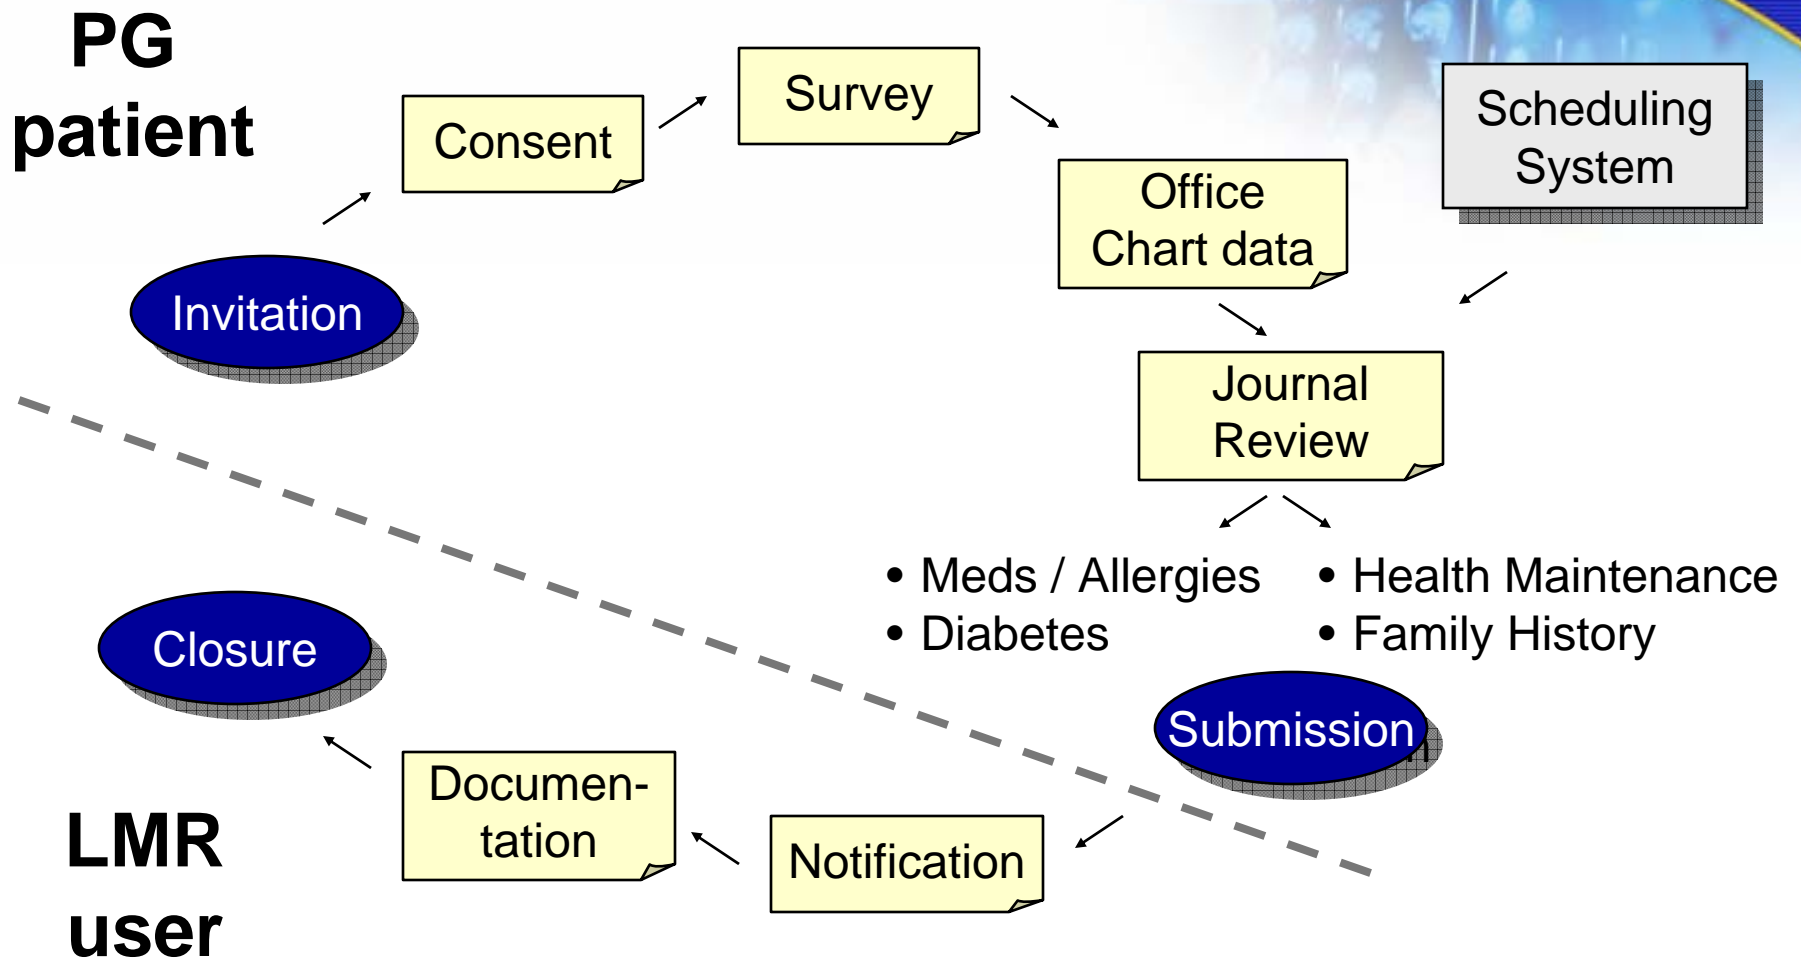

Cholesterol

Bone density scan

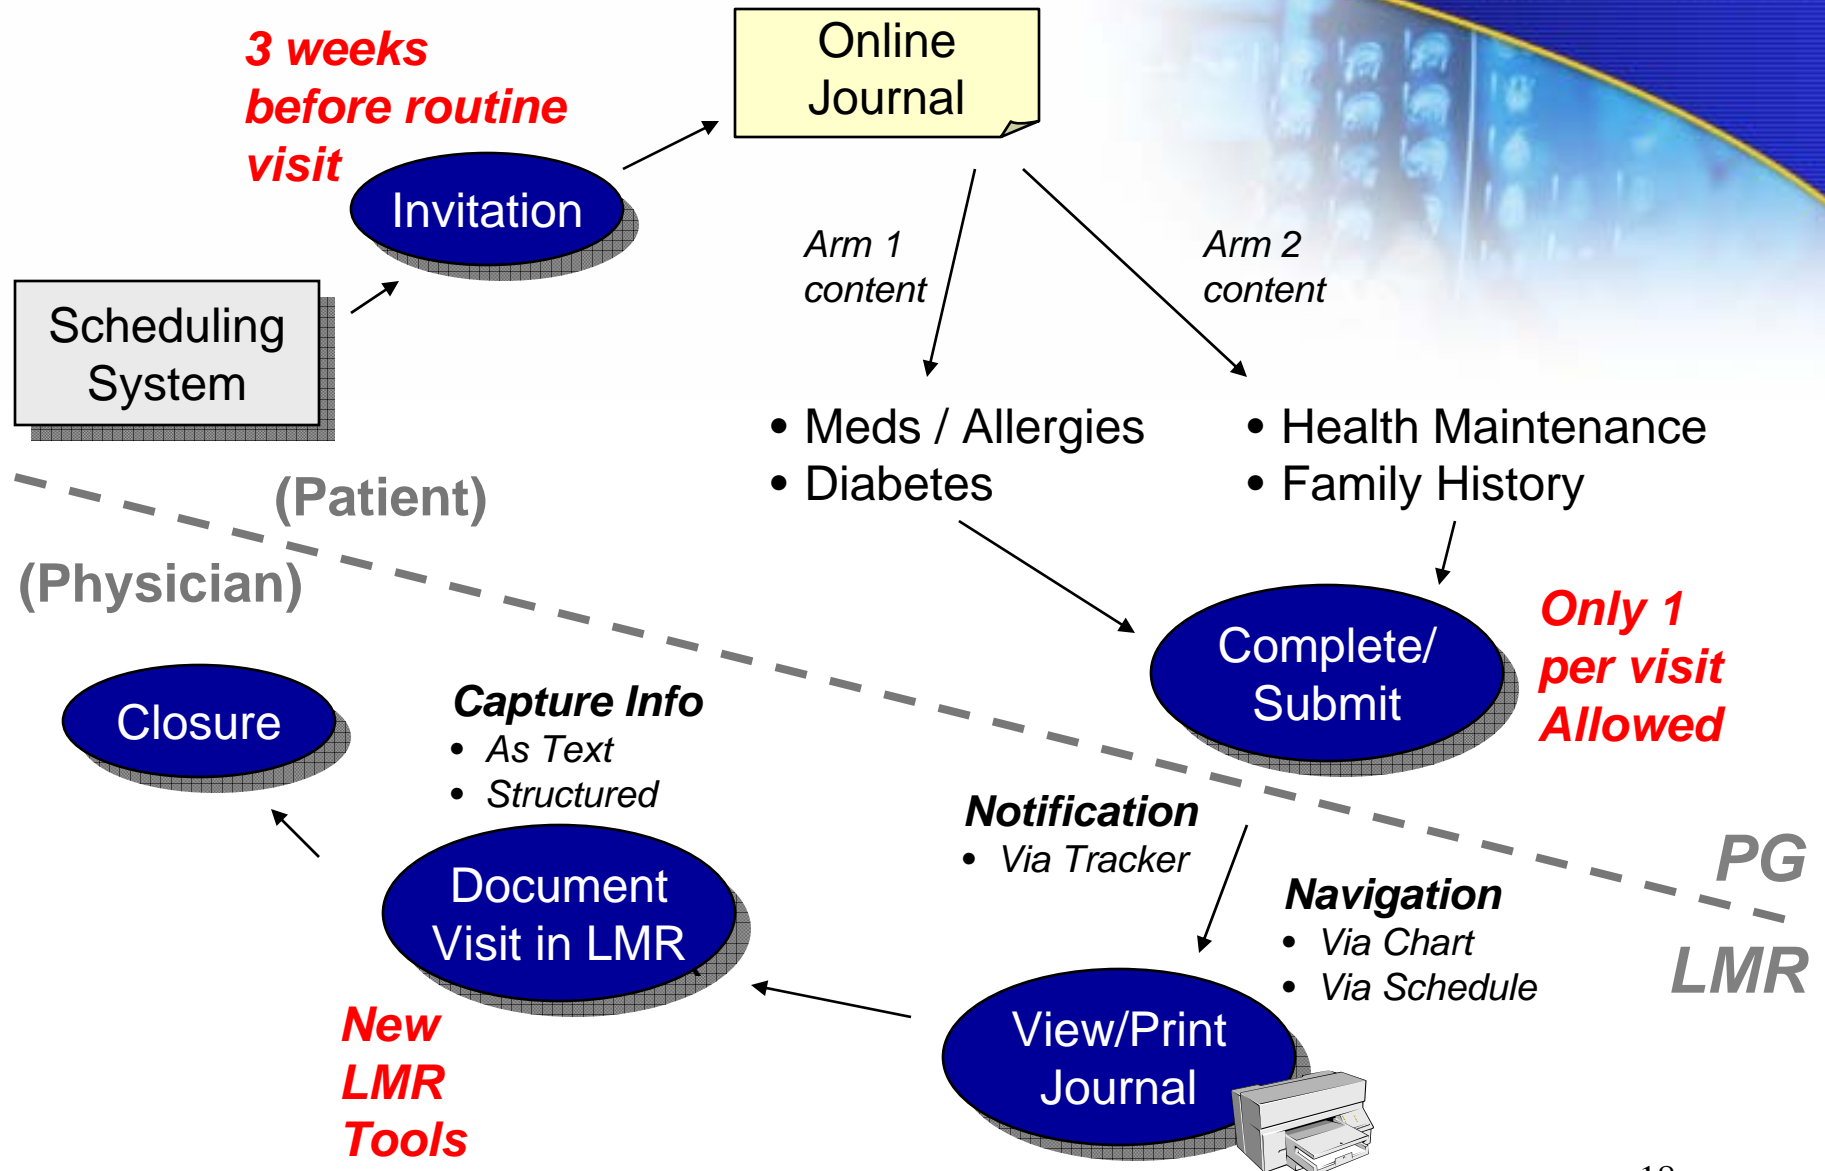

Family History (Arm 2)

- Personal or Family History of:
 - Colon Cancer
 - Breast Cancer
 - Coronary Artery Disease
 - Diabetes Mellitus, type II
 - Osteoporosis
 - Glaucoma

High-level Study Workflow

Visit Workflow

PACCT:

Data Collected from Patients

A
R
M
1

Meds/Allergies:

- *Accuracy, concerns*
 - *Monographs available (but no DDI checking)*

Diabetes:

- *Due items, Target attainment*
 - *Health education information available*

Care reminders:

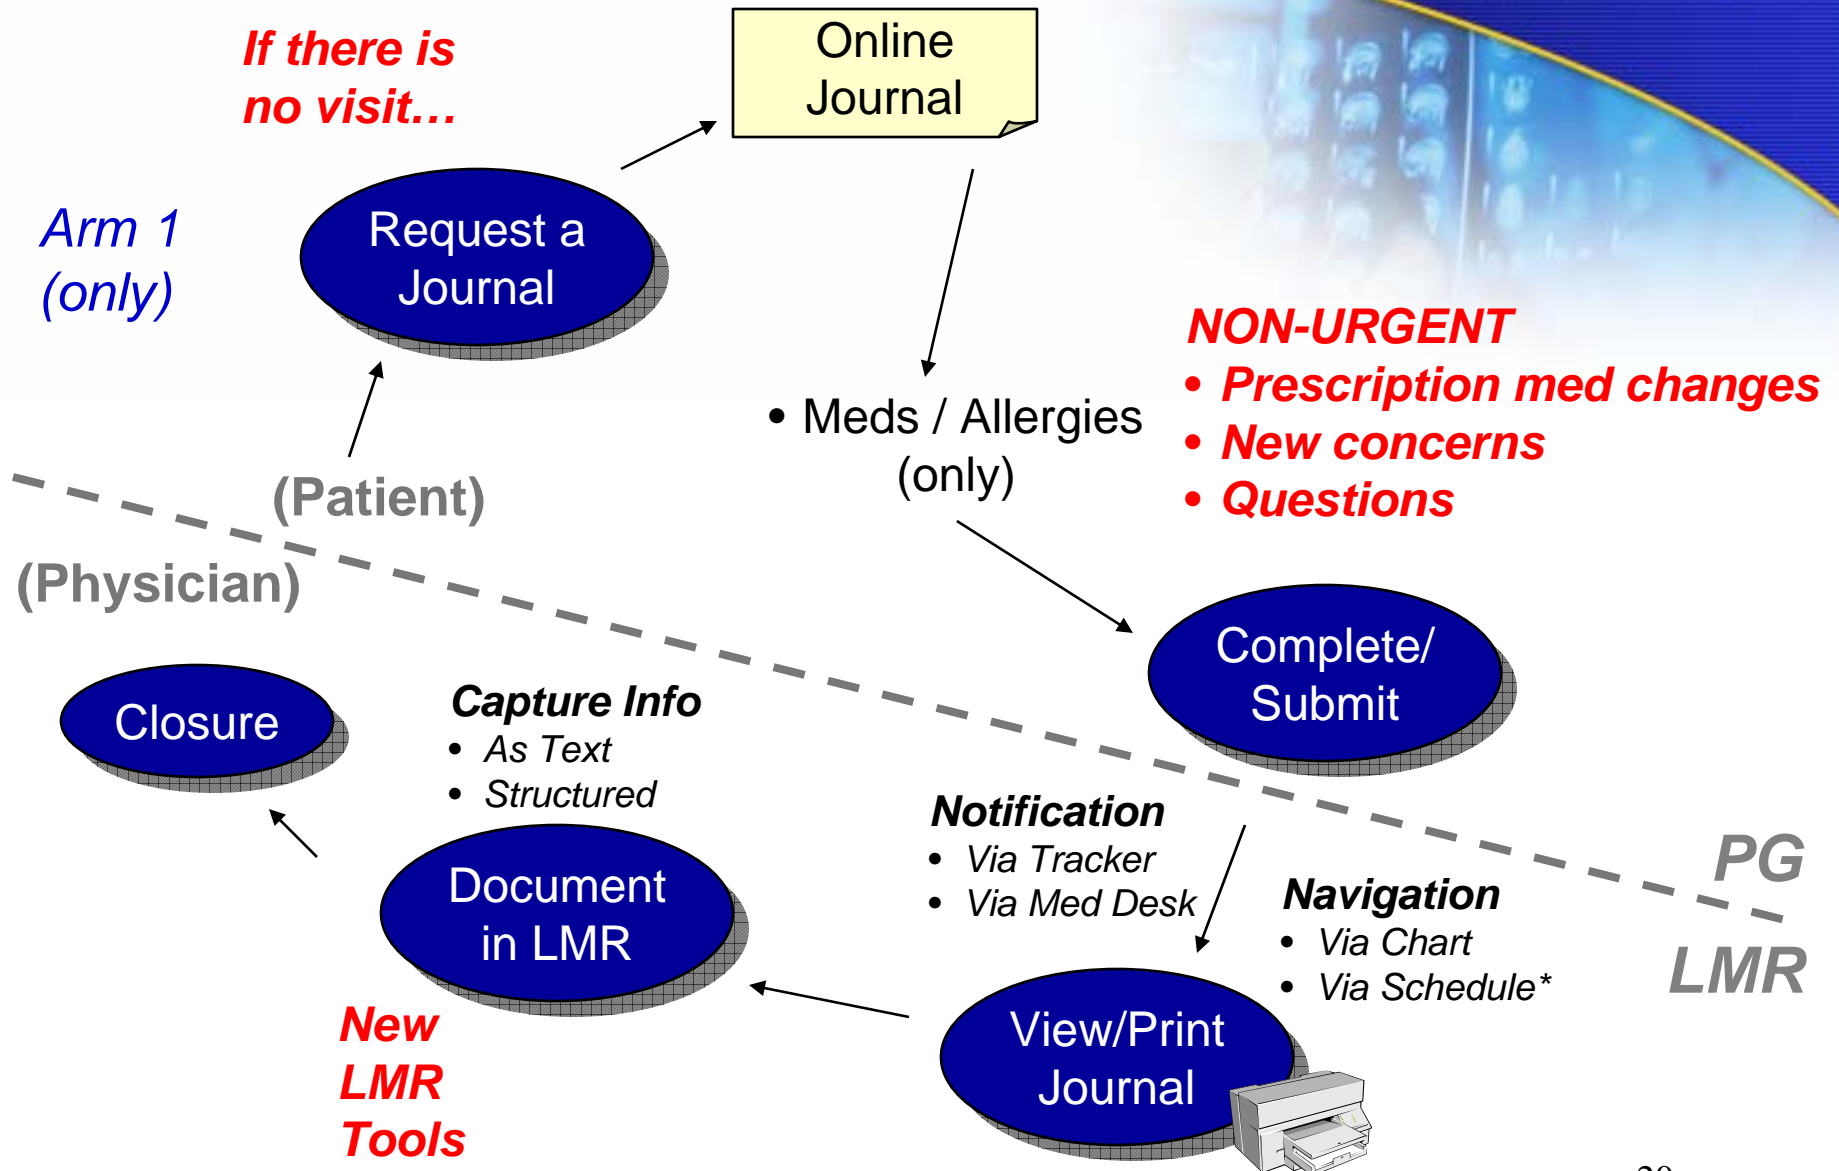

- *Due items*
 - *Health education information available*

Family history:

- *Document their family info*
 - *Health education information available*

Non-Visit Workflow

Non-Visit Update Request

ARM 1 only: Medications and Allergies only

Thank you for requesting this medications/allergies update.

NOTE: For urgent care needs, or emergency care, please contact your doctor's office by telephone or dial 911 immediately.

Please confirm that this is not an urgent request:

- This is not an urgent request**

Please mark the reason for this request (check all that apply):

- I have changes to my prescription medications or allergies to add to my chart**
- I am reporting new medication side-effects or problems that are non-urgent**
- I have some non-urgent questions about my medications I want to discuss with my doctor"**

PACCT:

Estimated/Target Volumes

- Offer study to 20,000 PG users
 - *Target: 5400 patients who each submit a Journal*
- Since Journal use may be related to physician marketing of Patient Gateway:
 - *Target: 100+ PG accounts per physician*
- Expected Journals/MD/week:
 - *<1 on average*

PACCT:

Modest Journal Volume

Practice Name	LiveDate	Patient Accts	MDs	% of Accounts	Journal Allocation	J per Week	J per MD per Week
BWH BIMA	Jun 2003	1098	55+	6%	307	6	.11

From: Research Desk
To: Oetest, Wilhelmina
CC:
Subject: Study Request

m.r.n. 16356792 (BWH)

Dear Wilhelmina Oetest

You recently received a research study called "Prepare-for-Care" regarding sharing medical information between patients and doctors.

Your participation is entirely voluntary, and you may continue to use Patient Gateway even if you do not participate in this pilot study.

For more information, please visit the Patient Gateway Research Center and review the consent form. If you wish to participate, please select the "I agree to participate" button. If you do not wish to participate in this study, please visit the Research Center and select the "I do not agree to participate" button, in order to prevent receiving further messages about this pilot study.

We would appreciate a response within the next week (and may try again to contact you if we don't hear back). If you have any questions, please send a message through Patient Gateway to the Research Desk or leave a phone message at 781-416-9216 for our study research assistant. We greatly value your time and effort in helping us pilot this research project.

Thank you very much!

Prepare-for-Care Research Staff

Dr. Louise Isabel Schneider, BWH at Norwood
Dr. Blackford Middleton, Principal Investigator
Dr. Jonathan Wald, Co-Principal Investigator

Prepare-for-Care Study	<input type="checkbox"/> Consent	Declined - 09/17/2004
------------------------	--	------------------------------

PATIENT GATEWAY :: RESEARCH CENTER

CONSENT FORM

Please review the study information below and click a button telling us if you would like to participate, or not.

This research study has been reviewed and approved by the Partners Institutional Review Board.
IRB Protocol Number: 2002-P-001491. Approved 10/09/2003. Expires 10/09/2004.

Protocol Title: Shared Online Health Records for Patient Safety and Care
Principal Investigator: Blackford Middleton, MD, MPH, MSc
Site-Principal Investigator(s)/Institution: Dr. Blackford Middleton (BWH), Dr. Richard Grant (MGH)
Description of Subject Population: Patients seeking care at one of the MGH/BWH/PCHI study sites.

PURPOSE

We would like permission to enroll you as a participant in the pilot phase of a research study concerning the quality of care patients receive with the use of new online tools. If you participate, you will be asked to use Patient Gateway to review personal health information such as your medications, screening tests to help you stay healthy, your family medical history, and if applicable, diabetes information. You were chosen to participate in the pilot phase of this study because you have been enrolled in Patient Gateway. The pilot phase will be testing a component of the larger research study. This research study is important because many believe that patients and doctors can improve the quality of care and the way they work together using online tools like Patient Gateway, but few large studies have been done to show the benefits. This research study is expected to have over five thousand participants and will be conducted over three

I confirm that the purpose of the research, the study procedures, the possible risks and discomforts and potential benefits that I may experience have been explained to me. Alternatives to my participation in this research study also have been discussed. All my questions have been answered. I have read this consent form and understand that the Research Team is available to answer any questions I may have in the future. Clicking "I agree to participate" below indicates my willingness to participate in the pilot phase of this study and my authorization to use and share with others my "protected health information" as described in the preceding paragraphs.

Survey Instructions

All information that would let someone identify you or your family will be kept private. You may choose to answer this survey or not.

You may have a family member or friend help you fill out this survey. The survey takes approximately 15-20 minutes to complete.

If you want to know more about this survey, please contact the Research Team at 781-416-9216 or by sending a message to the Research Desk through Patient Gateway.

Answer the questions by **clicking** on the box or circle that best fits your answer choice.

If you would like to keep a record of your answers, please print your survey by using the "Print Survey" link at the top or bottom of the page. Please print before clicking the "Submit" button. Once you click "Submit", you will **not** be able to return to the survey to view or change your answers. If you close the survey without clicking "Submit" your answers will not be saved.

In appreciation for your help with this study, please allow us to make a donation to the charity of your choice from the list below (check one):

What this is:

As you may know, breast cancer is common and afflicts one in 9 women over their lifetimes. Mammogram screenings have been shown to be .. [\(More\)](#)

Why this is due:

Our records do not show that you have had a mammogram done. In general, a mammogram is recommended every year for patients above the .. [\(More\)](#)

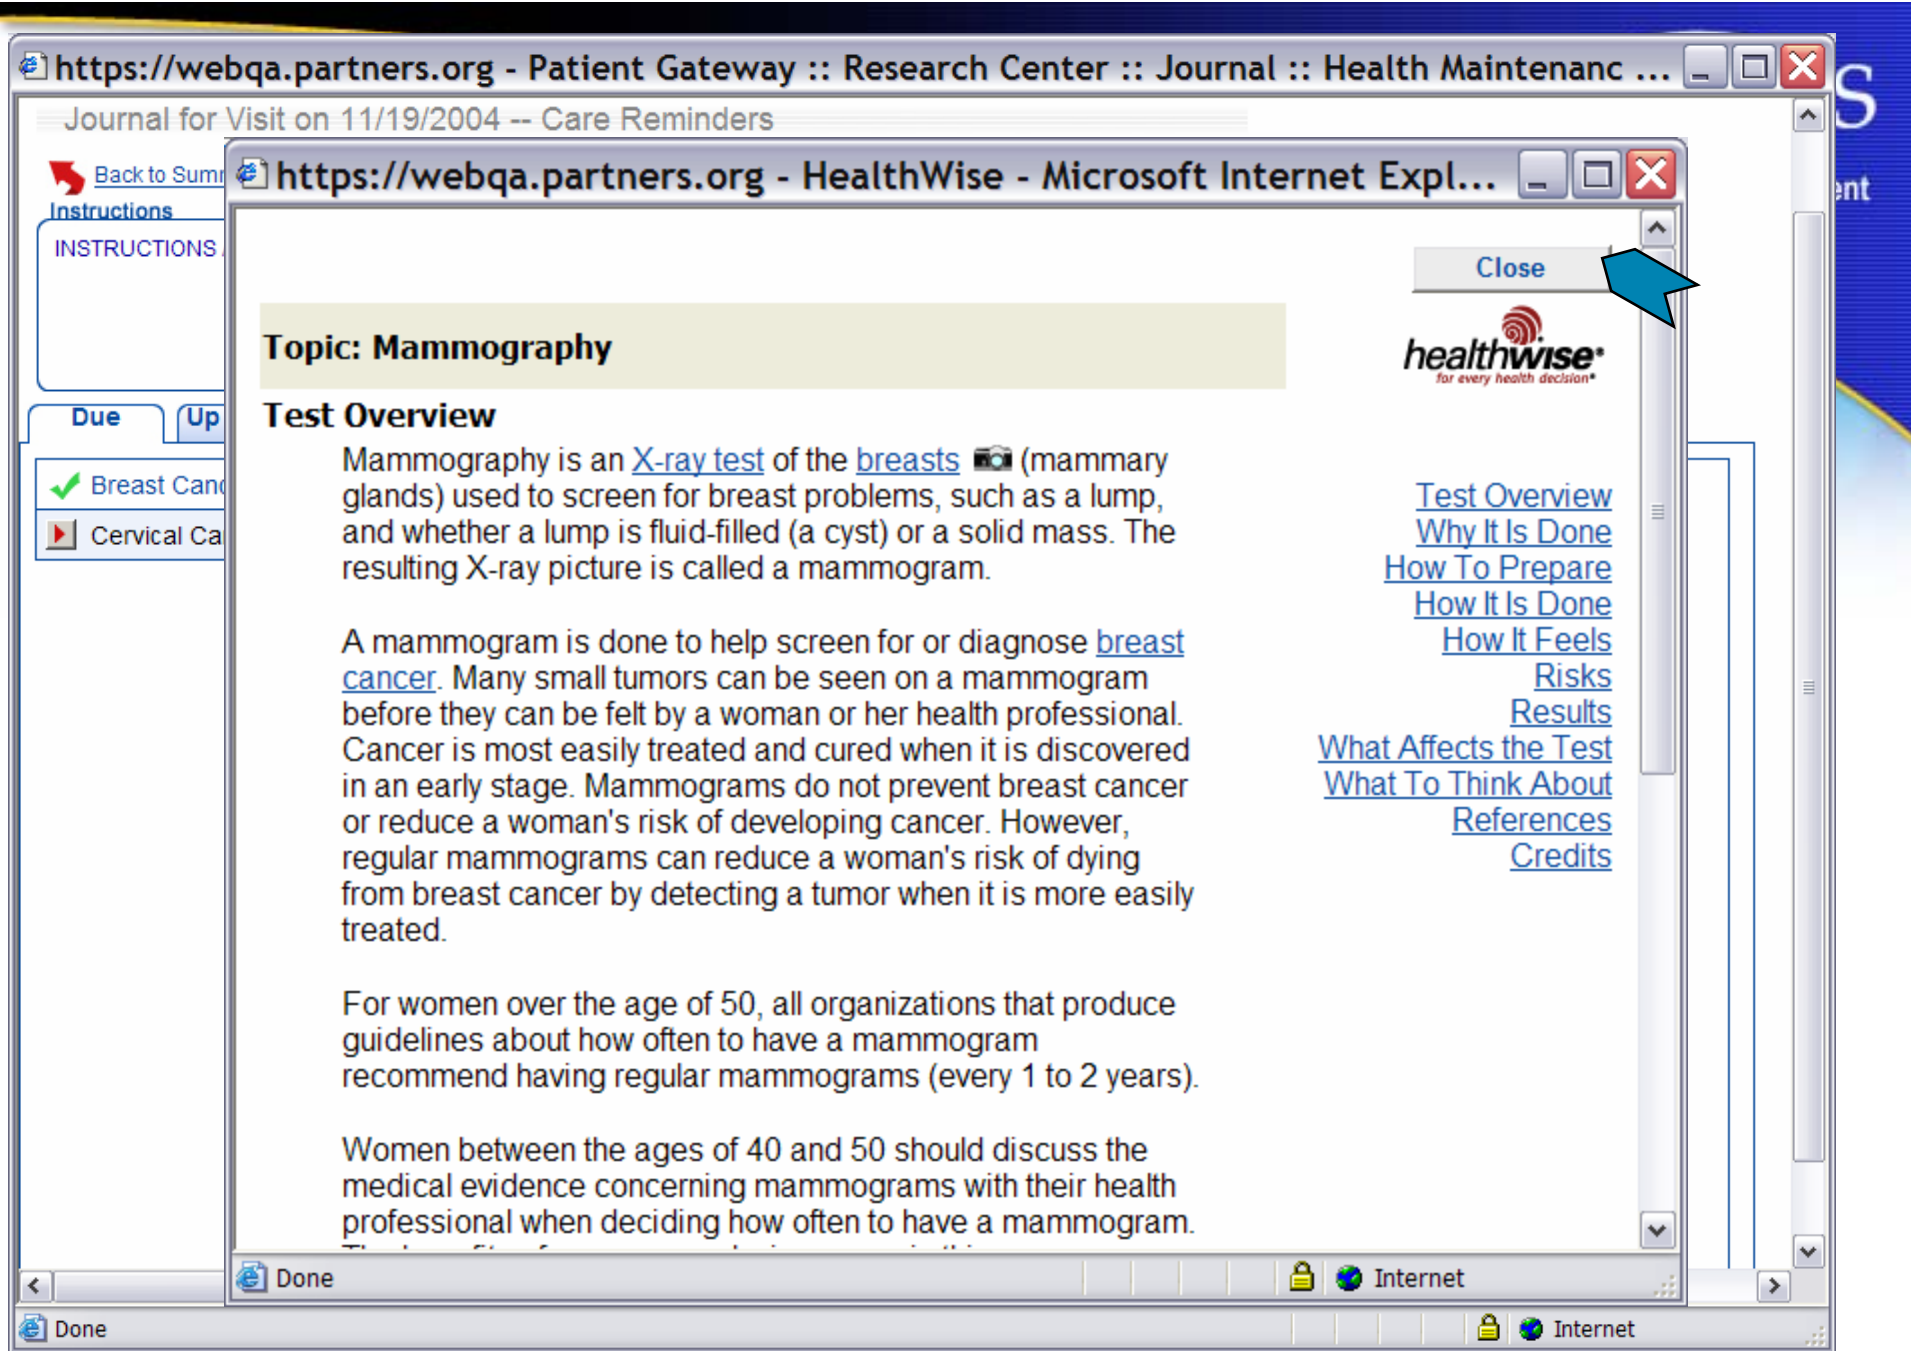

How would you like to take care of this?

- I want to have it done at the next visit.
- I'm unsure. I'd like to discuss this with my doctor at the next visit.
- It has already been done elsewhere.

Date: Result:

Location:

- I do not want this done.
- Skip this Care Reminder item.
- Other.

Care Reminders Edit

Due

- Breast Cancer Screening**
- Office Chart: *No information available*
- Your Entry: *[Please Complete]*
- Cervical Cancer Screening**
- Office Chart: *No information available*
- Your Entry: *[Please Complete]*

Up to Date

Medications Edit

Regimen

- Feldene (Piroxicam)**
- Office Chart: *1 Capsule by mouth once a day; Dispense 90 capsule(s);3 Refills; No substitutions*
- Your Entry: *[Please Complete]*
- Premarin (Conjugated Estrogens)**
- Office Chart: *1 Tablet(s) by mouth once a day; No substitutions*
- Your Entry: *Yes, this is correct.*

Allergies Edit

Allergens

- NKA**
- Office Chart: *No information available*
- Your Entry: *[Please Complete]*

INSTRUCTIONS ARE NEEDED

-  questions answered
-  please complete
-  additional information

Regimen

-  Feldene (Piroxicam)
-  Premarin (Conjugated Estrogens)

Add New

Feldene (Piroxicam) 
1 Capsule(s) by mouth once a day; Dispense 90 capsule(s);3 Refills; No substitutions
(prescribed by Elinor A. Mody M.D.on 10/14/2003)

Continue

PLEASE FINISH BY ANSWERING BELOW:

Are you still taking this medication **as shown above**?

- Yes -- I take it as shown above
- No -- I take it a **different way** (e.g. amount or how often I take it)
- No -- I am **no longer** taking it
- No -- I have never taken it
- I am not sure
- Skip

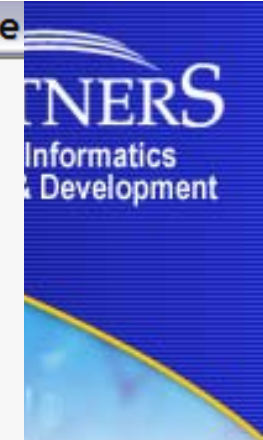

Why are you no longer taking this medication(check all that apply)?

- It was no longer needed
- It was not working
- It was too expensive
- I was worried about taking it
- Other
- I had Side effects

When did you stopped taking this medication?

Who stopped this medication?

PACCT:

Practice Requirements

- All PG patients in the practice are invited to participate
- All physicians or staff who receive a *Journal* from a patient are willing to look at it
- Practice staff and physicians can answer or triage basic patient questions about Journals
- Practice staff and physicians continue to market Patient Gateway to their patients

PACCT:

Next Steps

- Individual meetings with each practice
 - December 2004, January 2005
 - PACCT Team to meet with the practice Medical Director & Team
- Training will be scheduled with practices
 - March 2005
- Further Questions about PACCT?
 - Jon Wald MD
jwald@partners.org
781-416-8540
- *Next Advisory Council Meeting*
 - *7:00 – 8:30 am, February 9, 2005*

Results of Pilot

Jon Wald, MD, MPH
Co-Principal Investigator
Product Manager

Lisa Nelson
Corp Team Lead

Phase 1 Pilot – Software Goals

- Beta Test for Patients and Practices
- “Beta” process for joint development group (LMR and PG) coordination of work
 - Will help us plan subsequent releases
 - Validate operational environment
 - e.g. Validate the scheduling, reporting data
- Usability feedback

Phase 1 Pilot – Research Goals

- Pilot the data gathering process
- Pilot the research support process
- Finalize workflow and patient recruitment processes
 - How invitations for the pilot were determined:
 - Identified appointments during 6-week period in late August/September
 - AND patients with at least one overdue HM item
 - We invited those patients (49) to the pilot via letter and PG

Pilot Findings

- 49 invites mailed, and sent via PG
 - 8 responded with a consent 16%
 - 16 responded with a refusal 33%
 - 25 had “no response” 51%
- Telephone f/u with non-responders
 - 4/5 patients reached, were interested in study
 - Access issues: “don’t have password”; “not computer savvy”
 - Timing: “just returned from vacation”; “I was busy”

PACCT Pilot Activity

- 8 who consented 15%
 - All 8 have taken survey 15%
 - 7 have edited the journal 14%
 - 5 have submitted the journal 10%
- Among all PG users
 - 60% have activated their password
 - 41% have sent at least one request

PG User Activity Groups

- Roughly*
- Actively engaged 1/3
 - Sent a request
 - Passively engaged 1/3
 - No requests, but did activate their password
 - Not engaged 1/3
 - Requested an account, only
